EDUCATION

B.Tech

Amrita Vishwa Vidyapeetham

📅 2024 - 2028 📍 Amritapuri, India

Intermediate

FIITJEE Junior College

📅 2022 - 2024 📍 Visakhapatnam, India

- JEE Main: 95th percentile | JEE Advanced: Qualified

High School

Little Angels School

📅 2012 - 2022 📍 Visakhapatnam, India

SUMMARY

Software development undergraduate with hands-on experience across full-stack development, cloud platforms, and applied AI/ML. Builds and ships independent projects spanning AI-powered recommendation systems, developer tools, and IoT-integrated applications, and has practical exposure to agentic AI and LLM/RAG-based systems. Runner-up in the Business & Automation track at the Agentic AI Hackathon by NitroStack. Comfortable working across the stack, from cloud deployment and DevOps to machine learning and systems-level programming

SKILLS

Programming Languages

Python C++ C

Frameworks & Libraries

Next.js Node.js Flutter

TensorFlow.js

Cloud Platforms

AWS Microsoft Azure

Google Cloud Platform

DevOps & Tools

Docker Kubernetes CI/CD

Bash Scripting Nginx Linux

AI / Machine Learning

Machine Learning Agentic AI

LLMs

RAG (Retrieval-Augmented Generation)

Technologies

ESP32 Raspberry pi Arduino

SKILLS

Core Concepts

Digital Electronics

DSA

Signal Processing

Embedded systems (ARM 7
Microcontroller)

Other

Computer Networks
